

DOWNUNDER HALTER AND LEAD ROPE

LEAD ROPE

Features	Benefits
14 feet long	Keeps you a safe distance from your horse
Made of high quality marine yachting rope	<ul style="list-style-type: none">- 8,300 lb. breaking strength- Extremely durable and will last for years in any environment- Not slippery when wet or sweaty- Easy to clean
Comes standard with a stainless steel bull snap	<ul style="list-style-type: none">- Stainless steel snap and spring guarantees no rust- Easily open with one hand
Removable snap	<ul style="list-style-type: none">- Easily remove or change the snap without worrying about damaging the lead rope
Weighted end	<ul style="list-style-type: none">- Great feel and energy to allow you to give the slightest cues

HALTER

Features	Benefits
Strategically placed knots on noseband	<ul style="list-style-type: none">- Works off the pressure points of horse's nose which discourages leaning against the halter
Made of high quality marine yachting rope	<ul style="list-style-type: none">- 2,600 lb. breaking strength- Extremely durable and will last for years in any environment- Retains shape, won't stretch even if horse pulls back
1/4" in diameter	<ul style="list-style-type: none">- Thin diameter discourages the horse from wanting to lean or pull against it
Comes in 8 sizes	<ul style="list-style-type: none">- Hand tied to Clinton's specifications to ensure quality & craftsmanship

HALTER GUIDELINES

1. Muzzle diameter — Measure ABOVE the muzzle, around the face where the halter would sit (about halfway between eyes and nose) then add 2".
2. Measure from the front of the cheekbone to the back of the jaw (add or subtract 1/2" will fit).
3. Measure from the throatlatch to the bottom of the muzzle where the lips meet. Divide number by 2. (1/2" range will fit)
4. Measure where the halter would sit just below the cheekbone, up and over the poll (behind ears) and down to just below the cheekbone, then add 6".

NEWBORN — 0-3 months

1. 14"
2. 6"
3. 4"
4. Max 25"

SMALL — Arabian/ smaller muzzle

1. 25"
2. 9"
3. 6"
4. Max 31.5"

FOAL — 3-6 months

1. 18"
2. 5.5"
3. 4"
4. Max 25"

AVERAGE — 800-1,100#

1. 26"
2. 10"
3. 8.5"
4. Max 34"

WEANLING — 6-12 months

1. 20"
2. 7"
3. 4"
4. Max 25"

LARGE — 1,100-1,400# (warmblood)

1. 28"
2. 11"
3. 8"
4. Max 36"

YEARLING — 1-2 years

1. 24"
2. 7"
3. 4.5"
4. Max 31.5"

DRAFT — 1,400# +

1. 32"
2. 11"
3. 9"
4. Max 36"
